Location Popup: The popup should not be dismissible (If I press the back button popup is dismissed) until the user selects the correct location and the message should be more appropriate like: “You can’t shop in this location kindly update your location to your selected city i.e. Jeddah (If Jeddah is selected or then Riyadh).”

Home Screen: The scroll of category items is too much laggy.

Product Detail Screen: The add to WishList button is not working properly, if a product is added to the wishlist from the subcategory screen then the filled icon should appear in the detail screen, if I try to add that again in the detail screen (that is already added from the subcategory screen) getting already added error although by tapping again it should remove the item from wishlist.

2- Functionality Issues

→ Registration Screen & Login Screen

- ◆ Option to make the password visible.

→ OTP Verification Screen

- ◆ The verification code timer shows only 30 seconds, and needs to be set to 60.

→ Home Screen

- ◆ Constant pop-up of advertisement. Gets annoying after a while.
- ◆ Switching between tabs is laggy, and requires many taps for the page to change.
- ◆ Category items are too laggy in scrolling

→ Product Detail Screen

- ◆ If a product is added to the wishlist the icon is being changed, if I go back and revisit the same product the icon is changed back to unfilled.
- ◆ If I add a product from similar items the add to basket button of the selected product changes to view in the basket although that product is not in the cart.

→ My Cart

- ◆ If the Delivery Time is selected then I uncheck the selected time I'm able to place the order.
- ◆ If there is any whitespace in the coupon code then not able to add that coupon although the coupon is a valid one.

→ Checkout

- ◆ If I press back after adding the location then the location screen appears.

→ My Orders

- ◆ A limited time to cancel orders. Should not be unlimited time. (Extra feature)

→ Account

- ◆ Social media buttons on the account page do not work.
